

## **Gobinday's Equity Model Created By You**

Yoga is for everybody.

We believe there should be no physical or financial barrier to practice.

We made this nonprofit to break down any barriers.

Nonprofits can offer fee for service exchanges, and take donations to keep the whole thing going.

We call this

### **Participation and Co-Creation.**

Participation: When you sign up for class, that is an exchange.

We ask for a minimum, and you can skip even that as needed. You can add more dollars, to help cover everyone in the room.

When you co-create, you sponsor this whole thing via a tax deductible donation, above any classes you take.

You are Gobinday. Thank you.
